Remember

Hello and thank you for taking the time to read our Impact report for 2022. It gives us the opportunity to reflect upon a powerful, at times challenging, but ultimately game-changing year for the project. It's actually been a pleasure to stop and appreciate the impact that we are making (something that I don't do often enough!) but also to reflect upon how we can maximise our efforts moving into 2023.

Thank you for all of your support

Our focus for 2023

We have one main goal for 2023 and that is impact. Work has been directed towards creating programmes for both Primary and Secondary education, with a focus on empowering students to rise to the many challenges that they face in today's world. We now offer inspiring assemblies, group coaching workshops and one-to-one coaching sessions for students between the ages of 9-21 years old.

Our biggest challenge

Our biggest challenge moving into 2023 is, quite simply, **funding**. I am passionate about supporting our young people through these challenging times and it's now, more than ever, that we must come together and stand as one to make this happen. Please, be as active as you possibly can in answering the following questions:

Do you know anybody who could join our amazing community as a patron? If so, please share this link with them:

www.patreon.com/teamtallyho

Do you know of any businesses that would consider supporting our project through commercial partnership?

Do you know anyone who might consider sponsoring our work?

Together, I believe passionately that we can support our young to become the resilient generation that they'll need to be. It's all so very possible and I am ready, energized and more motivated than ever for what I'm sure will be our biggest year yet! Roll on 2023!

Thank you for all of your support. Words can't really express what it means to me. Onwards and Upwards...
